

\$EAT Light Paper

End Hunger Token

Token Name	Ticker	Network	Launch
End Hunger	\$EAT	Base (L2)	Dec 10, 2025
Total Supply: 100,000,000,000 (100 billion)			

The Problem

Food insecurity affects 47 million Americans. That's 1 in 7 people. For children, the numbers are worse: 1 in 5 kids in America does not have reliable access to food.

The hunger relief sector receives \$4.27 billion in annual charitable giving. Feeding America alone operates a network of 200+ food banks and 60,000 food pantries. Every \$1 donated provides 10 meals. Last year, these organizations distributed 9.7 billion meals.

The infrastructure exists. The need is clear. What's missing is a sustainable funding mechanism that turns everyday activity into ongoing support.

The Solution

\$EAT creates permanent infrastructure for hunger relief funding. Every trade on the **WYDE Impact Exchange** generates automatic contributions to verified hunger relief organizations. No extra steps. No fundraising fatigue. Just trading that matters.

This model targets **52 million Americans active in digital asset markets** who do not currently donate to traditional nonprofits. They have capital. They care about causes. They lack accessible giving infrastructure that fits how they already behave online.

Mission Target: 1 Billion Meals

Every aspect of \$EAT tokenomics aligns toward a single goal: funding 1 billion meals. All vesting schedules, partner rewards, team incentives, community distributions, and treasury unlocks tie directly to meals funded. When the community hits 1B meals, every allocation fully unlocks.

This creates complete alignment. Everyone wins when more people get fed.

Potential Cause Partners

\$EAT will partner exclusively with verified **501(c)(3)** hunger relief organization(s). Target partners include:

National and International

- Feeding America (largest U.S. charity by donations, \$4.27B annually)
- No Kid Hungry

- Feed the Children

Regional and Local

- Second Harvest Food Bank
- City Harvest
- Food Bank For New York City
- Northern Illinois Food Bank

Partnership Requirement: Partners must remain active for at least 12 months to participate in token distributions. At each milestone, tokens are split equally among all qualifying partners at that time.

Fee Structure

Trading \$EAT generates fees distributed across four pillars:

Base Liquidity Fee: 1% to 5% dynamic liquidity fee + 0.20% to Clanker/Farcaster protocol

Allocation	Percentage	Purpose
Cause Impact	25%	Direct funding to hunger relief partners
Holder Rewards	25%	Distributed to \$EAT token holders
WYDE	25%	Liquidity, marketing, ecosystem stability
Infrastructure	25%	Attention platform operations

Every trade sends 25% of dynamic fees directly to verified hunger nonprofits. This is automatic, transparent, and trackable on-chain.

Tokenomics

Token Distribution

\$EAT has a fixed total supply of 100,000,000,000 tokens. All vesting aligns to the 1 billion meals target.

Category	Tokens	% Supply	Vesting
Initial Liquidity	10B	10%	Uniswap at launch
Nonprofit Partners	5B	5%	Meals milestones (1-yr min)
WYDE Platform	15B	15%	10% liquidity + 5% team (meals)
Community Rewards	20B	20%	Meals-funded milestones
\$EAT Treasury	50B	50%	Meals milestones (governed)

Vesting Schedules

All vesting schedules use the same five milestones, creating unified incentives across every stakeholder:

Milestone	Meals Funded
Milestone 1	100 million meals
Milestone 2	250 million meals
Milestone 3	500 million meals
Milestone 4	750 million meals
Milestone 5	1 billion meals

Initial Liquidity (10B / 10%)

Structure: Immediate deployment at launch

Deployed to Uniswap pool on December 10, 2025. Creates initial market and enables trading from day one. No vesting or lock period.

Nonprofit Partners (5B / 5%)

Structure: Meals-funded milestone vesting with 1-year minimum partnership requirement

Partners must be active for at least 12 months to participate in distributions. At each milestone, tokens are split among all qualifying partners at that time.

#	Meals Funded	Released	Cumulative	% Unlocked
1	100M meals	1B (1%)	1B	20%
2	250M meals	1B (1%)	2B	40%
3	500M meals	1B (1%)	3B	60%
4	750M meals	1B (1%)	4B	80%
5	1B meals	1B (1%)	5B	100%

Distribution mechanics: At each milestone, tokens distribute to partners with 12+ months active status. Multiple qualifying partners split each distribution equally. Partners who join later become eligible after their 1-year anniversary.

WYDE Platform (15B / 15%)

The WYDE allocation splits into two components:

Liquidity Support (10B / 10%): Available for liquidity operations, market making, and ecosystem stability. Managed by WYDE to maintain healthy trading conditions.

Team/Organization (5B / 5%): Vested based on meals-funded milestones, aligning team incentives with mission success.

#	Meals Funded	Released	Cumulative	% Unlocked
1	100M meals	1B (1%)	1B	20%
2	250M meals	1B (1%)	2B	40%
3	500M meals	1B (1%)	3B	60%
4	750M meals	1B (1%)	4B	80%
5	1B meals	1B (1%)	5B	100%

Purpose: Platform operations, liquidity provision, marketing campaigns, ecosystem incentives, strategic partnerships, team compensation, and infrastructure maintenance.

Community Rewards (20B / 20%)

Structure: Meals-funded milestone vesting

#	Meals Funded	Released	Cumulative	% Unlocked
1	100M meals	4B (4%)	4B	20%
2	250M meals	4B (4%)	8B	40%
3	500M meals	4B (4%)	12B	60%
4	750M meals	4B (4%)	16B	80%
5	1B meals	4B (4%)	20B	100%

Purpose: Airdrops, growth initiatives, staking rewards, governance participation bonuses, trading incentives, and community engagement programs.

\$EAT Treasury (50B / 50%)

Structure: Meals-funded milestone vesting, governed by \$EAT token holders

#	Meals Funded	Released	Cumulative	% Unlocked
1	100M meals	10B (10%)	10B	20%
2	250M meals	10B (10%)	20B	40%
3	500M meals	10B (10%)	30B	60%
4	750M meals	10B (10%)	40B	80%
5	1B meals	10B (10%)	50B	100%

Target: 1 billion meals funded unlocks the full treasury allocation.

Vesting Summary

Allocation	Tokens	Vesting	Milestones	Governance
Initial Liquidity	10B (10%)	Immediate	Launch	None
Nonprofit Partners	5B (5%)	Meals	100M → 1B	1-yr min
WYDE Liquidity	10B (10%)	Available	Operations	WYDE
WYDE Team	5B (5%)	Meals	100M → 1B	WYDE
Community	20B (20%)	Meals	100M → 1B	Community
Treasury	50B (50%)	Meals	100M → 1B	\$EAT holders

Milestone Unlock Summary

What unlocks at each meals-funded milestone:

Milestone	Partners	WYDE Team	Community	Treasury	Total
100M meals	1B	1B	4B	10B	16B (16%)
250M meals	1B	1B	4B	10B	16B (16%)
500M meals	1B	1B	4B	10B	16B (16%)
750M meals	1B	1B	4B	10B	16B (16%)
1B meals	1B	1B	4B	10B	16B (16%)
Total	5B	5B	20B	50B	80B

Note: Initial Liquidity (10B) and WYDE Liquidity Support (10B) are available from launch/operations, totaling 20B. The remaining 80B unlocks through meals-funded milestones.

Governance

\$EAT operates under the WYDE Wyoming Decentralized Unincorporated Nonprofit Association (DUNA) structure.

Voting Rights

Voting unlocks in 2026. Token holders should understand that governance participation will not be available at the December 10, 2025 launch.

When voting activates, \$EAT holders will participate in:

- Treasury deployment decisions
- Nonprofit partner selection and approval
- Community reward distribution strategies
- Impact priority setting
- Protocol parameter adjustments

First Year Governance Structure

The first nonprofit partnership contracts are set by WYDE and the founding charity partners. These agreements are immutable for the initial 12-month period, provided both parties operate according to the partnership terms.

This protects early partners from governance volatility while the community establishes voting norms and participation patterns. After the first 12-month contract concludes, community governance votes determine future partner arrangements.

Market Opportunity

Hunger Relief by the Numbers

Metric	Value
Annual U.S. charitable giving to food insecurity	\$4.27 billion
Americans facing food insecurity	47 million
Percentage of U.S. population	1 in 7
Children facing food insecurity	1 in 5
Feeding America food banks	200+
Food pantries in network	60,000
Meals per dollar donated	10
Annual meals distributed	9.7 billion

Influencer Alignment

Hunger relief scores 10 out of 10 for influencer partnership potential. The cause translates perfectly to creator-driven content:

Why hunger works for creators:

- Immediate, tangible impact (meals served, families fed)
- Visual storytelling (food distribution, community events)
- MrBeast-style philanthropy alignment (measurable, dramatic results)
- Universal appeal across demographics and political affiliations
- Holiday seasonality creates natural fundraising momentum

Major supporters in the space:

- MacKenzie Scott (significant multi-year commitments)
- Walmart Foundation
- Amazon
- Target
- Food industry corporations

Platform Infrastructure

\$EAT launches on the WYDE Impact Exchange with:

- Base blockchain (Coinbase Layer 2)
- Uniswap v4 integration for liquidity
- Farcaster/Clanker audited token deployment
- Pool.fans fee tokenization
- Attention launch and scale partner
- On-chain transparency for all transactions

- Real-time meals-funded tracking
- Community governance tools (Snapshot - 2026)

Key Dates

Date	Milestone
December 10, 2025	\$EAT token launch + initial liquidity deployed
December 2025	First nonprofit partnership agreements active
2026	Governance voting unlocks
TBD	100M meals funded (first vesting unlock)
TBD	1B meals funded (full unlock achieved)

Summary

\$EAT transforms trading activity into hunger relief funding through automated fee distribution to verified 501(c)(3) organizations. The token launches December 10, 2025 with:

Total Supply	100 billion tokens
Initial Liquidity	10B (10%) - Immediate
Nonprofit Partners	5B (5%) - Meals milestones, 1-yr min
WYDE Liquidity	10B (10%) - Available for operations
WYDE Team	5B (5%) - Meals milestones
Community Rewards	20B (20%) - Meals milestones
\$EAT Treasury	50B (50%) - Meals milestones, governed

The tokenomics align all stakeholders around a single mission: funding 1 billion meals. Partners earn by staying committed. The team earns by delivering impact. The community benefits as the mission progresses. The treasury unlocks as the platform proves its effectiveness at scale.

The hunger relief sector receives \$4.27 billion annually and serves 47 million food-insecure Americans through established infrastructure. \$EAT creates a new, sustainable funding channel by redirecting trading fees directly to this cause.

Target: 1 billion meals funded.

Every trade feeds someone.
